

LRS FEDERAL AWARDED 5-YEAR HOMELAND SECURITY CONTRACT

Annapolis, MD August 18, 2009 – LRS Federal, a Service-Disabled Veteran-Owned engineering and consulting company, was awarded a five-year contract by the Department of Homeland Security (DHS) to provide Technical Services under the Program Management, Administrative, Clerical and Technical Services (PACTS) multiple-award suite of indefinite- delivery indefinite-quantity contracts. The PACTS contract has a potential period of performance of five years with a maximum value of \$1.5B (across all PACTS vendors) and will support DHS on a worldwide basis. The broad scope of services to be provided include all aspects of engineering design and development, preparation of feasibility studies, preparation of preliminary and final plans and designs, provision of technical services during the construction or installation phases, inspection and evaluation of engineering projects and related services.

The engineering and technical services to be performed under this contract will be available for use by all offices of the U.S. Department of Homeland Security. LRS Federal will compete for work with other PACTS vendors and will provide the engineers, scientists, project managers, regulatory experts, subject matter experts and other technical support required to address the diverse and complex DHS mission objectives within the United States as well as Outside the Continental United States.

“There is nothing that could be more satisfying to a veteran-owned company like ours than supporting the Homeland Security mission,” said Sean Logan, LRS Federal CEO. “We are especially pleased that the DHS views our talent and experience in high enough regard to provide us with the incredible opportunity presented by this contract award.” Tom Scott, LRS President added, “The broad scope and mission of the DHS provides us with the ability to leverage the diverse expertise of our multi-disciplined staff while still remaining focused on a core group of clients as we continue to grow as a client-focused company.”

LRS Federal is a well-established Service Disabled Veteran-Owned Small Business (SDVOSB) with headquarters in Annapolis, Maryland and additional offices in Virginia, Tennessee, Colorado and Texas. LRS projects are implemented at federal installations nationwide with a focus on engineering, environmental services, “green” energy initiatives, construction management and program/project management support.
