

LRS Federal Project Description

Upper Midwest Performance-Based Remediation

The Air Force awarded LRS an eight-year contract worth \$23M to provide environmental remediation services at seven United States Air Force installations in the Upper Midwest. The Air Force Civil Engineer Center awarded this contract to address soil and groundwater contamination at 102 sites on Air Force bases in South Dakota, North Dakota, Idaho, Missouri, Nebraska and Wyoming.

The scope of this eight year contract requires LRS Federal to provide a full range of engineering and construction activities necessary to achieve minimum performance objectives to support progress for site closeout at these contaminated locations. The Air Force is interested in substantial reduction of long-term environmental liabilities and lifecycle costs through accelerated achievement of site closeout and optimization of environmental restoration activities for all sites while complying with applicable federal, state and local laws and regulations.

Soil and groundwater remediation and environmental compliance activities will be conducted at

- flightlines, taxiways, aprons and airfield structures;
- maintenance and industrial facilities;
- underground and aboveground storage tanks;
- oil-water separators;
- landfills and burial yards;
- Fire Protection Training Areas;
- low-level radioactive waste sites;
- POL hydrant fueling systems;
- loading docks;
- septic tanks;
- gas stations;
- utility plants and sewage treatment facilities;
- storm sewer systems;
- golf courses;
- DRMO storage yards; and even a
- remote decommissioned reactor site.

The soil and groundwater contamination includes large basewide groundwater plumes, a variety of different fuels, degreasers and solvents, PCBs, asbestos, heavy metals, medical waste and radiological constituents.

The variety of contaminants and types of sites that must be addressed in these northern tier states will require innovative technologies and innovative applications of traditional technologies, extensive use of sampling and monitoring techniques, regulatory knowledge of local, state and federal requirements, and project management expertise. The technologies to be implemented include a variety of in-situ bioremediation technologies, soil vapor extraction, excavation and disposal, and chemical oxidation.

LRS Federal Contracting Information

Current Prime Contracts:

- **AFCEE World-wide Environmental Remediation and Construction (WERC09)**
Contract # FA8903-10-D-8551 as a Joint Venture with ARGO Systems LLC (ARGO/LRS JV), contract capabilities include construction, environmental cleanup, Military Munitions Response Program requirements, and fuel systems support
- **Mobile District A-E Construction Engineering Services IDC**
Contract # W91278-13-R-0028 Support of the U.S. Army Medical Command (MEDCOM), DOD, and other Federal Health Systems
- **Mobile District Corps of Engineers Construction Engineering Services**
Contract # W91278-11-D-0039 Full service construction management support to include project management, quality assurance, database management, cost-estimating, and administrative service in support of the U.S. Army Medical Command at Army Medical Treatment Facilities in Continental United States, Alaska, Hawaii, and Puerto Rico
- **Kansas City District Corps of Engineers A-E Hazardous, Toxic, and Radioactive Waste Services**
Contract # W912DQ-12-D-3002 HTRW related architect-engineering support to include remedial investigations, feasibility studies, pre-design investigations, design services, and construction phase services
- **Omaha District Corps of Engineers Environmental Consulting Services**
Contract # W9128F-08-D-0005 Full service environmental consulting support to include environmental planning, compliance, natural and cultural resources, and environmental remediation services
- **Omaha District Corps of Engineers Environmental Remediation Services**
Contract # W9128F-10-D-0047 Full service environmental remediation support to include engineering support, LTO/LTM, data management, energy evaluation, full-service environmental remediation services, and project programming and scheduling support
- **Veterans Affairs Administration–East Region Environmental and Historic Services**
Contract # VA101-F-12-D-0055 as a Joint Venture with Marstell Day LLC (LRS/MD JV), contract is for environmental services and historical services at new and existing VA facilities
- **Department of Homeland Security PACTS**
Contract # HSHQDC-09-D-00040 Comprehensive Technical Services support to the Department of Homeland Security to include all disciplines with the exception of information technology
- **GSA Schedule for Environmental Services**
Contract # GS-10F-0360T Awarded Special Item Numbers (SINs): 899-1, Environmental Planning; 899-2, Environmental Compliance; 899-7, Geographic Information Systems; 899-8, Remediation Services
- **FDIC Basic Ordering Agreement**
Contract # RECVR-08-G-0010 Environmental due diligence, site investigation and remediation support
- **Department of Homeland Security BioWatch**
Contract # HSHQDC-09-C-00049 On-going support to the biological agent air monitoring program in the National Capitol Region
